GUNSTIX SHOOTING STICKS

Shoot confidently at all practical ranges with GunStix shooting sticks. The quad legged design provides an extremely stable shooting platform as it supports both the fore-end as well as stock of the rifle. Ideal for ladies and young shooters.

Adjustable for shooting at different angles under most field conditions.

Weighing just over 2lbs and compacting down to just over 30" makes them easy to take on your next hunt.

WELCOME TO HUNTERS NETWORKS

We specialize in organizing big game hunting trips around the globe. We collaborate with top-tier outfitters, thoroughly vetted and often personally experienced by us. We never make false promises, ensuring no hidden surprises upon arrival. With years of extensive worldwide hunting experience, we know what it takes to plan a successful hunt. Our clients range from first-time international hunters to Weatherby Award winners who have hunted the world.

Together with our partners, we provide a comprehensive service, from not only booking your hunt but also travel arrangements, visas, gun permits, hotel reservations, trophy import, and taxidermy.

Not every hunt or destination we represent is listed in our annual catalogue, so let us know if you are interested in a specific hunt or a destination that may not be listed. We frequently offer new and discounted hunting opportunities, join our mailing list to stay updated info@huntersnetworks.com

We look forward to helping you plan your next adventure.

Thanking you for your time.

Sincerely,

Arjun & Vikram Reddy

COUNTRY DESCRIPTIONS

BOTSWANA

Our Botswana-based operator offers some of the finest plains game hunting available anywhere in Africa. Their expansive private concession provides outstanding hunting opportunities for Eland, Kudu, Oryx, and more. Their 7-day plains game package is exceptionally affordable and offers unbeatable value, including six trophy animals. Over the years, numerous clients have hunted there and consistently praised their operation.

For dangerous game, the same operator manages some of the premier big game government concessions in Botswana. These concessions allow for hunting Elephant, buffalo, and leopard. The leopard hunts, conducted with Bushman trackers, offer a thrilling experience.

CAMEROON

Cameroon presents two unique hunting experiences. In the Northern Savannah, key species include the Lord Derby Eland, Savannah buffalo, Western Roan, and Hippo. You can also hunt various sub-species of plains game unique to West Africa. If you haven't hunted in West Africa, you haven't hunted these species. Go while the opportunity exists. Savannah hunts occur from January to May.

The forest hunt in Southern Cameroon features main species such as the Bongo, dwarf forest buffalo, forest Sitatunga and elephant, along with a variety of forest duikers, including the rare yellow-backed duiker. This is an incredible hunting experience with pygmy trackers and their dogs. The season runs from March to early June.

MOZAMBIQUE

Our partner in Mozambique operates across several different concessions, offering all the various species that one can hunt in Mozambique. This destination is exceptional for hunting lion, leopard, buffalo, Roosevelt sable, bushpig, other species of plains game, along with hippo and huge crocodiles. The Niassa region, offers outstanding hunts for lion, leopard, buffalo, and plains game unique to the area. This remote location is ideal for tracking old dugga boys. In the south, Cahora Bassa offers some of the best hunting in Africa for large crocodiles, which are often man-eaters and represent one of Africa's greatest trophies. Both Lion and Leopard hunts have a high success rate.

NAMIBIA

Namibia is one of Africa's premier destinations for plains game hunts. Our partners manage large private game farms teeming with diverse game species. Their lodges are very comfortable, featuring beautifully appointed chalets with all modern amenities, ensuring a pleasant stay for both hunters and non-hunting companions. Our partners can also organize sightseeing tours before or after your hunting safari. In addition to plains game, both black and white rhinos can be hunted in Namibia. Leopard hunting here is excellent, with quality as high as the best found anywhere in Africa. These hunts are also reasonably priced when compared to other African countries.

In northern Namibia, near Khaudum National Park, we offer some of the finest elephant hunts available in Africa. We average ivory in the low 70s each year in this area. With a small annual quota, hunts get booked quickly, so if a large elephant is in your future, please contact us in advance. The wilderness camp, with thatched and canvas accommodations, is set in a beautiful sand forest area and includes all amenities, including Wi-Fi.

COUNTRY DESCRIPTIONS

SOUTH AFRICA

We work with several top outfitters in South Africa. Our outfitter in Kwazulu Natal offers several different species on his own private property. He also has access to 1000's of acres of cattle farms and free-range hunting areas in close vicinity. He has a unique hunt for Kudu in the months of January and February when the Kudu leave the thick cover and bush to come out into the open areas to escape the mopane flies. This is an incredible hunt where you will see countless bulls. The hunt is done by glassing and then planning a stalk much like a hunt for Mountain Nyala. This area is also excellent for Nyala, Common and mountain reedbuck as well as a good selection of plains game. His hunts are also excellent value for money. Being a small operator, you will receive a personalized service and be welcomed warmly.

TANZANIA

Tanzania is one of Africa's premier safari destinations, offering an incredible diversity of species. Partnering with one of the top outfitters, we provide hunts in Masailand, Central, and Western Tanzania. The hunt in Masailand includes all the unique plains game species of the region, such as the desirable Lesser Kudu, Gerenuk, and various gazelles. With luxurious tented camps, spectacular service, and gourmet food, this is a hunt every hunter should experience at least once! These hunts can be combined with sightseeing trips to various national parks before or after, making it a fantastic vacation for the entire family.

Our hunts in Central and Western Tanzania are for the big game! These areas are excellent for hunting big maned lions, leopards, thousands of buffalo, and various plains game species. Here too, luxurious tented camps with all amenities ensure hunters have an unforgettable safari experience. All our areas offer the option of commercial flights and ground transportation to camp instead of an expensive charter flight.

ZAMBIA

Zambia is a premier destination for hunting big game such as lion, leopard, elephant, buffalo, as well as hippo, crocodile, and all Southern African plains game species. Unique to Zambia are the Sitatunga, Kafue Lechwe, and Black Lechwe. Our long-standing Zambian operator, with whom we have worked for many years, offers hunts for all these species and has built a stellar reputation over the years. We strongly encourage hunters to consider Zambia for their next African hunt.

ZIMBABWE

Home to many of Africa's best Professional Hunters (PHs), Zimbabwe offers an array of great hunting opportunities and remains one of the top destinations for hunting four of the Big Five, as well as hippo and crocodile. Plains game are plentiful on private concessions but more limited in government hunting concessions and community hunting areas. Expensive charters are generally not required, providing a significant cost saving. Zimbabwe also offers hunts for tuskless elephants and lionesses, providing the same thrilling experience as hunting males of these species at a reduced cost.

ARGENTINA

Partnering with a small outfitter who provides personalized service, we offer all the big-game and bird species available in Argentina. Argentina is a bird shooter's paradise, offering unmatched volume dove and pigeon shooting. With liberal limits and an abundance of ducks, you'll feel like you're in duck heaven. Let us tailor a fantastic hunting experience for you in Argentina.

COUNTRY DESCRIPTIONS

AUSTRALIA

Our partner in Arnhem Land offers over a million acres of exclusive hunting territory teeming with free-ranging buffalo. Their remote tented camp in Arnhem Land provides an excellent base for hunting both trophy and cull buffalo. Additional species such as donkeys, pigs, camels and scrub bulls (feral cattle) can also be hunted. This is a highly enjoyable hunt, perfect for big bore or double rifle enthusiasts, as it offers plenty of shooting opportunities. There are also options for large cull hunts.

Banteng are hunted in Coburg National Park. Banteng are wild bovines introduced from Southeast Asia, now endangered in their native countries they can only be hunted in Australia. In addition to Banteng, there is great fishing to enjoy on this hunt as it is on the coast.

BULGARIA

Bulgaria is a premier Eastern European hunting destination, renowned for its exceptional free-range native red stag. A red stag hunt during the roar will be one of your greatest hunting experiences. It's one of the few countries outside Russia where you can hunt Capercaillie. The Balkan chamois are also unique to Bulgaria, along with most other native European species such as roe deer, wildboar, mouflon and fallow deer. We offer affordable cull hunts for red deer and fallow hinds in October. Accommodation is in small country hotels or comfortable lodges with all modern amenities, either in the hunting area or a short distance away. Experienced guides tailor the hunt to suit hunters of all ages and physical abilities.

GREENLAND

Greenland offers one of the most unforgettable and unique hunting adventures. Apart from a great hunt, you will witness the polar ice cap, the northern lights, and experience true Arctic life. The main species are Musk Ox and Caribou. For those interested solely in Musk Ox, our Spring hunts in March are ideal. Suitable for hunters of all ages and physical abilities, these hunts utilize ATVs, making them relatively easy compared to the more challenging Musk Ox hunts in Canada. A comfortable, warm cabin and home-cooked meals ensure a pleasant experience.

For those seeking a combination hunt for Musk Ox and Caribou, our fall hunt in August is perfect. Musk Ox are found grazing along lake shores, while Caribou are located in the hills, requiring a certain level of physical fitness. We also offer winter hunts primarily for Caribou.

We recommend meeting up with your non-hunting partner and spend a few days in Copenhagen on your way to or back from Greenland, making for a delightful vacation.

KYRGYZSTAN

The Republic of Kyrgyzstan is renowned for its hunts for Marco Polo sheep and mid-Asian ibex. The Marco Polo sheep here, often referred to as the Tian Shan Marco Polo, generally have shorter horns compared to those in Tajikistan, but they boast considerable mass, similar to big horn sheep. These hunts are more affordable than those in Tajikistan and offer mountain hunters a delightful experience, with horse riding and camping in the picturesque high country. The mid-Asian ibex here have a distinctive white saddle and typically measure between 40 to 50 inches. Our partner, who has been conducting these hunts for several years, operates a very reliable and well-regarded outfit.

COUNTRY DESCRIPTIONS

NEW ZEALAND

Located on the South Island, just a few hours' drive from Queenstown, our New Zealand partner offers exceptional hunts for Red Stag, Elk, and most other species found in the region. Their estate features a comfortable lodge where guests can enjoy home-cooked meals and fine wines. They offer some of the most competitive rates in all of New Zealand, and all our clients have consistently reported high satisfaction and enjoyment with their hunts.

RUSSIA

Over the years our clients have taken some tremendous trophies including a 75" Moose, 9'+ brown bears, snow sheep etc. While American hunters understandably have not wanted to hunt Russia over the last few years. It has been open for business and we have had Australian clients hunt there with no problems whatsoever. We are hopeful that over the next year there will be positive developments and expect hunting to be popular again by 2026. The price, success rate and trophy quality of Russian hunts are both very attractive when compared to similar North American hunts. Our Russian partners hunting concessions are some of the best areas available. The camps are also well appointed with some even having Wi-Fi! If you are looking for a true wilderness adventure, many Russian hunts will be experiences of a life time.

TAJIKISTAN

Tajikistan is renowned for probably the most desirable sheep on earth—the Marco Polo. It stands as one of the finest destinations for mountain hunters. Our Tajik operator offers hunts for Bukhara and Pamir Ibex, Markhor, and Marco Polo sheep. Hunters can typically expect sheep in the mid to high fifty inch range. Combination hunts for Marco Polo and Ibex are also available. These are challenging mountain hunts, so prepare accordingly and experience the hunt of a lifetime.

TURKEY

Turkey offers some of the best wild boar hunting opportunities today. The local hunters generally do not hunt wild boar, resulting in an abundance of these animals. Wild boar hunting can be done by stalking in the moonlight at bait sites as well as driven hunts. Yacht-based boar hunts are also available. Additionally, our outfitter partner has access to some of the best areas for Bezoar Ibex. Turkey, including Istanbul, offers great sightseeing, making it easy to combine a hunting trip with a vacation. Sub-species of red stag, roe deer, and other game are also available for collectors.

UAE

Few hunters associate the United Arab Emirates with hunting opportunities! However, on a sizable reserve, we offer hunts for native species such as Arabian Oryx, sand gazelles, and mountain gazelles. Accommodation is provided at a nearby resort, with luxury rooms and villas available to guests. These trophies cannot be imported into the USA.

A few extra days can be planned for sightseeing and touring making it a great vacation.

BOTSWANA PLAINS GAME

This is one of the absolute best plains game hunts we offer our clients, both in terms of the quality of the hunt, organization and trophy quality, as well as value for money.

Package Hunts

7 hunting days 1 hunter \$7,600 + VAT \$465.50 – includes daily rate and trophy fees for Gemsbok, Kudu, Eland, Blue Wildebeest, Impala and Jackal.

CAMEROON SAVANNAH

The hunting concession of 75,000 hectares is located in North Western Cameroon, bordering Faro National Park. The hunting concession is landlocked between a 1300 high mountain chain and the magnificent Faro river and one of its tributaries, Mayo Ndugba, which serves as a natural barrier against poachers during the rainy season. The concession has 250 km of dirt roads without villages or local inhabitants and is a 4 hour drive (175 Kms) from Ngaoundere in the South.

Embracing the style of local architecture, the camp is situated on the banks of the Faro River. This idyllic setting provides clients with a relaxing atmosphere and camp. Locally sourced foods and a mix of local and French cuisine are enjoyed by our guests. A full bar is also provided. Clients thatched roof bungalows are furnished with king size beds with mosquito nets with en-suite bathrooms. Daily laundry service is included. Camp is solar powered. Wi-Fi access is included.

Season dates: January to end May

AUSTRALIA BUFFALO

We are delighted to offer premium quality, free-range buffalo hunting in the Northern Territories. Our Australian partner's extensive concession spans over a million acres in the Central Arnhem Land plateau, home to a vast population of buffalo, allowing us to provide both trophy and cull buffalo hunts.

These formidable, large animals present the perfect challenge for big bore and double rifle enthusiasts, we also cater to archery hunters.

Hunts are conducted from a remote tented camp, well-equipped with hot showers, beds, fans, Wi-Fi, electricity, and other amenities, ensuring a comfortable base for your hunting adventure.

Day 10 – Return to Khorog, fly to Dushanbe and overnight

Day 11- Depart for home

Hunting: Transport by 4WD. During the day you will explore the upper edges of the mountains, glassing the hillsides and feeding areas. Once the trophy is located you stalk on foot. You hunt at around 14,000+ feet.

Marco Polo Base camp: In Tajikistan the camps are located at 12,000 to 13,500 feet. The camps are warm, clean and comfortable with dining area, bedroom and toilet facilities. Electric generators supply electricity to the camp. You will find good meals and quality service. The camp is equipped with a satellite-phone.

Weather: Usually the weather is favorable and rather predictable in this region during the hunting season. During daylight hours in November the temperature ranges from 30 Fahrenheit / 0 Celsius up to 50 F / 10 C and nighttime from 14 F / -10 C up to 5 F / -15 C. Windy conditions.

**Prices and seasons are subject to change depending on government legislation.*

TURKEY BEZOAR IBEX

This is a traditional mountain hunt. Hunters must be physically fit and proficient to shoot at 300 meters plus. Accommodation is in local hotels or village homes close to the hunting area. In some areas spike camps may be used. It is important to know the size of the Ibex you wish to hunt when booking the hunt so the right area can be selected for your hunt.

7 hunting days + day of arrival and departure.

The cost of the hunt depends on the trophy size of the Ibex as it is included in the hunt cost.
